Hi RJ Maintenance Team,

I just wanted to take a moment to say a huge thank you for the incredible work you did on my home retiling project.

I am genuinely so impressed with the final result. The project was estimated to take around two weeks, but you managed to complete everything in just over a week and the quality of the work is exceptional.

What stood out to me just as much was your communication throughout the project, so thank you Orrin. You kept me informed, were responsive, and treated my home with care and respect. Everything was left looking beautiful, neat and well finished.

I am extremely happy with the outcome and would have absolutely no hesitation in recommending RJ Maintenance to my friends and family. Thank you for making what could have been a stressful home improvement project such a smooth and positive experience. Keep up the incredible work! I truly appreciate it.

Thank you again
